### **ORR Safety Joins ASLRRRA's Member Discount Program**

*ORR Safety to Provide Personal Safety Equipment & Related Services*

**WASHINGTON, April 7, 2021** – The American Short Line and Regional Railroad Association (ASLRRRA) announces its newest [Member Discount Program](#) provider, [ORR Safety](#). ORR Safety is an ISO 9001-registered distributor of Personal Protective Equipment (PPE) and related services to the industrial market. For over 70 years, the company has provided products and services to over 20,000 customers, helping to protect hundreds of thousands of workers.

“During the early stages of the pandemic, railroads and other front-line workers were challenged to find PPE. We are pleased to bring ORR Safety onboard to ensure that ASLRRRA’s members have a trusted partner that can be relied upon to supply our industry with necessary and innovative products, keeping railroad employees safe as they work tirelessly toward economic recovery,” said Chuck Baker, ASLRRRA President.

ORR Safety has unique experience with the railroad industry having worked with Class 1 railroad companies since 1972. They currently provide PPE products and solutions to five Class 1 railroads and 196 short line railroads as well as contractors that support the railroad industry.

In addition to a catalog of products, ORR Safety also offers services such as:

- Voucher programs and eligibility tracking
- Life safety system installation, inspection, calibration and repair
- Product rationalization and consolidation
- Field audits and recommendations
- Designing and implementing unique product and/or service-based solutions to demanding challenges

“For more than 40 years, we have worked specifically with railroad customers and suppliers to provide innovative solutions to many of the unique challenges inherent in this complex and demanding industry,” said Bob Johnson, Vice President, Railroad Sales for ORR Safety. “We look forward to the opportunity to deliver products and services designed to enhance the short line industry’s ability to implement effective and efficient safety programs.”
